- (a) limit your exposure (close trades); or
- (b) hedge your positions (open counter positions to the ones you have right now) while re-evaluating the situation; or
- (c) deposit more money in your Client Account.

9.11

If you fail to meet a Margin Call and the market works against you, your positions will be automatically closed (in full or in part) when the margin level is equal or less than Stop out level of your account type and we have the right to refuse a new Order.

9.12

You undertake neither to create nor to have outstanding any security interest whatsoever over, nor to agree to assign or transfer, any of the Margin transferred to us.

We follow a negative balance protection policy which means you cannot lose more than your invested Capital. Nevertheless, the negative balance protection policy shall not apply in cases where FXCC, in its sole discretion, has reasonable indications or suspicions that the Client has acted fraudulently, abusively, manipulatively, deceitfully or otherwise to abuse the negative balance protection policy.

21.1

The Company will promptly place any Client money it receives into one or more segregated account(s) (denoted as 'clients' accounts') with reliable financial institutions (within or outside Cyprus or the EEA) such as a credit institution or a bank in a third country. It is understood that the Company may keep merchant accounts in its name with payment services providers used to settle payment transactions of its Clients. However, for the avoidance of doubt, it is noted that such merchant accounts are not used for safekeeping of Client money but only to effect settlements of payment transactions.

21.2

According to Applicable Regulations, the Company shall exercise due skill, care and diligence in the selection and appointment and periodic review of the financial institution of paragraph 21.1 of this Client Agreement and the arrangements for holding of Client money. The Company takes into account the expertise and market reputation of such institutions with the view of ensuring the protection of Client's rights, as well as any legal or regulatory requirements or market practices related to holding of Client money that could adversely affect Client's right. However, it is understood that there are circumstances beyond the control of the Company and hence the Company does not accept any liability or responsibility for any resulting losses to the Client as a result of the insolvency or any other analogous proceedings or failure of the financial institution where Client money will be held.

21.5

The financial institution (of paragraph 21.1 of this Client Agreement) where Client money will be held may be within or outside Cyprus or the EEA. of that person, the Client's money may be treated differently from the treatment which would apply if the money was held in a Segregated Account in Cyprus.

21.6

The financial institution to which the Company will pass Client money (as per paragraph 21.1 of this Client Agreement) may hold it in an omnibus account. Hence, in the event of the insolvency or any other analogous proceedings in relation to that financial institution, the Company may only have an unsecured claim against the financial institution on behalf of the Client, and the Client will be exposed to the risk that the money received by the Company from the financial institution is insufficient to satisfy the claims of the Client..

37 Client Acknowledgements Of Risks

37.1

You unreservedly acknowledge and accept that:

- (a) you run a great risk of incurring losses and damages as a result of trading in CFDs and accept and declare that you are willing to undertake this risk. The damages may include loss of all your money and also any additional commissions and other expenses.
- (b) CFDs carry a high degree of risk. The gearing or leverage often obtainable in CFDs trading means that a small deposit or down payment can lead to large losses as well as gains. It also means that a relatively small movement can lead to a proportionately larger movement in the value of your investment and this can work against you as well as for you. CFDs Transactions have a contingent liability, and you should be aware of the implications of this in particular the margining requirements.
- (c) when trading in CFDs you are trading on the outcome of the price of an Underlying (e.g. currency or metal or commodity) and that trading does not occur on a Regulated Market but Over-The-Counter (OTC).
- (d) you have chosen the particular type of service and financial instrument, taking your total financial circumstances into consideration which you consider reasonable under such circumstances.

- (e) you agree and understand that trading on an electronic Online Trading System carries risks.
